Summary of Impediments:			
<ul style="list-style-type: none"> • Landowners are resistant to SWCD assistance because they are opposed to any form of government help • Not all agencies are coordinating well together • Independent efforts by private agricultural landowners are not recorded well • The Coos-Coquille Area is subject to geologic and climatic issues that complicate restoration activities due to erosion and excessive flooding resulting from intense winter rain events 			
Recommendations for Modifications:			
<ul style="list-style-type: none"> • The LAC recommended that the ODA Director organize a meeting at ODA headquarters in Salem with all of the LAC Chairmen (38) throughout Oregon to discuss the Biennial Review Process and relevant issues pertaining to Oregon's Agricultural Water Quality Program
